

For the attention of

President Alan Garber – Harvard University

OBJECT: The Racial Laws of 1925 and the real holocaust

Dear President Alan Garber,

concerning the democratic values and the free world you claim to represent, I wonder if you could find a student, or even a professor, to quote a few lines concerning the racial laws enacted the 3rd January 1925.

Could you tell the difference between the Nazi and the Fascist racial laws?

As matter of facts, these racial laws have NEVER been abolished, and still today are shaping every line of every schoolbooks of Every University west of KIEV, including every subject starting from mathematics and drawing, but especially History and Justice.

Also Wikipedia doesn't dare to publish the translation of these documents, but there are a few in Latin, and in Italian.

By chance I am from Italy, and I am here just to ask you a few questions about it.

I suggest the President Alan Garber to document himself and ask the Senator for life Ms Liliana Segre. She is a Jew and a survivor.

You may ask the senator if she was persecuted because of the **Fascist racial laws** enacted the 3rd January 1925, or she had to wait for the **Nazi racial laws** 14 years later, in November 1938.

You may also ask his son the lawyer concerning the propaganda of democracy and diversity she represents so well, as she is the perfect cover up for the racial laws and the REAL HOLOCAUST still going on since the 3rd January 1925.

THE POINT

From the start I like to address that

a) The democratic values are the result of the EMANCIPATION from the absolute power of the church.

b) The democratic values, like the freedom of choice and the secular value of justice have never been catholic values but catholic heresies to be persecuted throughout history with repeated genocides and intellectual cleansing, and last by Mussolini.

c) And especially the secular value of justice, especially the EMANCIPATION from the divine justice is the EXACT reason why the ancient Romans used to call the Christians with the name of UNCIVILIZED BARBARIANS and TERRORISTS.

Second I like to recall for you that

a) The 3rd January 1925 Mussolini said that - the democratic values have to be found in the Catholic tradition - then he dismissed the parliament, the political parties, the freedom of press, created Vatican City, made the Catholic Religion the Religion of State and persecuted the oppositions as Apostates of the faith and enemies of the State.

b) Then after the end of the war, the Fascist racial laws of 1938 repeating the Nazi racial laws have been abolished, but the Vatican was not removed or excluded from the public administration, to restore legality the way it was before the reformation of Mussolini.

c) And the Fascist racial laws of 3 Jan 1925 have never been abolished but renewed with more anathemas and privileges of culture and tradition, like the pretension that the democratic values would be catholic legacy, despite nobody was ever able to tell any of these democratic value of catholic tradition, but the tradition of tyranny and abuses, corruption, intellectual cleansing, intellectual servitude and witch huntings.

Dear President Alan Garber, Could you tell the difference between the Nazi racial laws and the fascist racial laws?

It took a dictatorship to restore the Vatican as a moral leader, after it was overthrown because of the tradition of tyranny, mafia and corruption, and the degenerated pervers and tormentors they are.

Could you tell how the democratic values have become catholic legacy, without the racial laws as evidence of democracy?

Could you tell the High Moral Ground of the racial laws and the divine justice is NOT the only reason to justify your claim of democracy and diversity?

Could you tell how many times the Vatican was overthrown in History, from administering any form of justice on earth?

Could you tell the emancipation from the divine justice is the exact reason why also the ancient Romans used to call the Christians with the name of uncivilized barbarians and terrorists?

CONCLUSION

In conclusion, the democratic values are not those of the multitude to impose their recommendations above the laws as a divine opinion, but those of the individuals to claim the rights they are supposed to have and to question your claims with factual evidences.

So I like President Alan Garber could democratically answer a few simple questions and demonstrate the students of Harvard are not brainwashed 100% with no exceptions.

In conclusion, I have to ask you again

- if you could tell ONE democratic value that it has been a catholic value in history
- if you could tell HOW the democratic value have become catholic legacy, without having to quote the racial laws of Mussolini because that is not evidence of democracy
- if the High Moral Ground of the racial laws is the only reason to support your claim of democracy and diversity

Last not least I suggest President Alan Garber to document himself and ask the SENATOR for life Ms Liliana Segre. She is a Jew and a SURVIVOR. You may ask the senator if she was persecuted because of the Fascist Racial Laws enacted the 3rd Jan 1925, or she had to wait the Nazi Racial Laws 14 years later, in November 1938. I would like the senator could tell one democratic value represented by the Italian parliament since the 3rd January 1925. I underline, while the parliament repels the fascist legacy in writing, the fascist legacy is the only reason to justify them as democrats. You may also ask his son the lawyer concerning the propaganda of democracy and diversity she represent so well, as she is the PERFECT COVER UP for the Racial Laws and the REAL HOLOCAUST still going on since the 3rd January 1925.

Why don't you ask the senator in what system of values whatever "idiot" world-wide has the rights to feel honest with the RECOMMENDATIONS of the bishop for diplomas and degrees they never had, while the others, the locals, don't have the rights to have confirmation of their true academic career with best marks from state university, and become paperless like impostors and counterfeiter?

You could also ask the PhD professor of Giulio Regeni in Politics at Cambridge University, Professor Maha Abdelrahman if she could help you to answer a few simple questions, or she is another piece of propaganda of democracy from Jerusalem.

ETHNIC REPLACEMENT

Dear President Alan Garber

the "ETHNIC REPLACEMENT", is just a synonym for the RACIAL LAWS. It is also synonym for "intellectual cleansing", intellectual servitude and slavery. It is a double-bind, exactly like mafia do.

So I wonder if you could really provide evidence of that diversity, democracy and free world you claim to represent, or you are just another of the many Romans from Jerusalem!

ATTACHMENT

Dear President Alan Garber,

as further evidence I send you the following documents in attachment.

Free PDF View/Download from website, over 200 pages Excarpt. Visit www.lbbblacksmith.org

As you can see it was the Police in Milan to issue my passport and then confirm my address and presence in person on more papers, my property house. Could you tell in what system of values later they could claim I wasn't there?

As you can see from the photograph of my graduation ceremony at Verona University, I master my degree with best marks. Could you tell in what system of values later they could claim I wasn't there?

As you can see I had a PhD offer in Visual Perception, and I already had sponsor and customers, but the Consulate couldn't provide passport replacement after the theft of my passport, and the Verona University couldn't provide confirmation of my university degree with my best marks... And I have become paperless like an impostor.

As you can see the EU sent lawsuit to Italy for the violation of Civil Rights, on the ground of the letters from the consulate, the photograph of my graduation ceremony, the witnessing of English police and more English public officers...

As you can see it was in the news, with the dean of the Faculty in Verona reporting my best marks and also the assistance provided by the consulate in making me paperless and look like an impostor...

Could you tell in what system of values the prosecutor could claim "it didn't happen", against the letters of the consulate and the witnessing of the police?

Could you tell, it is the holy cross in the courtrooms to transform the perjury of public officers into acts of devotion and career opportunities?

Could you tell in what system of values, years after the happenings, PM Tony Blair could claim it is an "Italian private matter" if Regeni has the rights to feel honest with the recommendations of the bishop for diplomas and degrees he never had, while the other cannot have confirmation of their true academic career from state university, but eventually would be impostors, or eventually terrorists for claiming their rights not to be the impostors.

So I send you the photographs, the witnessing and reports of the police and public defendants concerning repeated false accusations, after the EU sent lawsuit to Italy for the violation of civil rights, as further evidence of the cover up, with more blackmail and witch hunting of divine origin.

As matter of facts they feel they have the rights to make people paperless, and claim the victims are the problem, not conforming to their high moral standard of degenerated pervers they are, starting from Royals and bishops... Never mind Jimmy Savile

GREETINGS

- Dear President Garber, your divine view of democracy and justice is colliding with the real world of corruption you represent, and I thank the President Donald Trump for the opportunity to complain this regime of recommendations and mafia.

- I would appreciate if Harvard University could confirm to MP Mike Reader the statistical evidence of the degenerated pervert they are, starting from Royal and Bishops.

- I would MP Mr Mike Reader could comment concerning institutional propaganda and the refund of the tuition fees to Ms Pok Wong ...

- I would like to know MP Ms Shabana Mahmood minister for justice could answer concerning the rule of the laws, or she is another Roman from Jerusalem. Like Maha Abdelraham, professor in Politics at Cambridge University, but unable to answer simple questions concerning the democratic values.

Dear MP Mike Reader,

If you could answer any of these questions, I wouldn't tell you, you won the war but you lost the peace, because you are very ignorant and very stupid.

So I send you the reports and witnessing of the police and public defendants, as further evidence of the degenerated and perverts you are, starting from Royals and Bishops... Never mind Jimmy Savile...

With Best Regards
